PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 4 years of professional experience building scalable web applications, highly responsive user interfaces, and robust API-driven systems. Proficient in React.js, Next.js, Node.js, Express.js, and modern CSS frameworks. Experienced in handling independent freelance client milestones and launching end-to-end digital products with a strict focus on usability, clean architecture, and optimized performance.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, WebGL, Responsive UI/UX
Backend & Data:	Node.js, Express.js, RESTful APIs, Firebase, Authentication (JWT/OAuth), API Integration
Web3 (Foundational):	Solidity, Ethers.js, Web3.js
Tools & DevOps:	Git, GitHub, Netlify, Vercel, Postman, VS Code
Soft Skills:	Problem Solving, Client Collaboration, Time Management, Clear Technical Communication

PROFESSIONAL EXPERIENCE

Freelance Full Stack / Frontend Developer

Nigeria | Mar 2023 – Present

- Architect and scale modern web applications and client business solutions using React.js and Node.js.
- Translate custom business requirements and creative briefs into highly responsive, mobile-first user interfaces.
- Optimize frontend-backend communication and integrate secure APIs, reducing layout latency and improving cross-device performance.
- Manage end-to-end project lifecycles independently, delivering clean, maintainable codebases to client specifications.

FEATURED PROJECTS

NumShift

numshift.online

Modern digital communication and contact notification platform

- Built a highly responsive UI featuring a clean, dark-mode SaaS aesthetic with seamless user workflows.
- Optimized frontend architecture for fast load times, ensuring high performance across web and mobile devices.
- Implemented secure frontend routing and fluid UI transitions to maximize user engagement.

ReachBack

reachback.online

Community-focused backup platform designed for digital creators to safeguard their networks

- Engineered an intuitive user dashboard utilizing modern UI design tokens and component-driven architecture.
- Developed responsive layout systems ensuring an engaging, seamless experience across all screen sizes.
- Integrated robust state management to handle dynamic content rendering smoothly.

MovieDrop

moviedrop.site

Sleek movie discovery platform featuring a vibrant, high-energy UI

- Implemented a strict mobile-first design philosophy using tailored color schemes and refined navigation elements.
- Developed dynamic content presentation logic to fetch and render media data efficiently.

Eldtrip Planner

eldtrip-planner.netlify.app

Interactive, dynamic travel planning web application

- Leveraged JavaScript and modern frontend libraries to provide real-time user input validation and interactive scheduling features.
- Structured a clean, component-based frontend layout to handle complex user data inputs gracefully.

Kennis PH

kennis-ph.netlify.app

Accessible web platform focused on local community resources

- Focused heavily on web accessibility (WCAG), performance optimization, and cross-browser usability.
- Created clean, semantic HTML and reusable CSS components for sustained platform longevity.

EDUCATION & CERTIFICATIONS

Udemy & FreeCodeCamp

2022 – Present

Full Stack Web Development & Computer Programming Curriculum:

- Responsive Web Design
- JavaScript Algorithms & Data Structures
- Frontend Libraries (React, modern state management)
- Backend Development & APIs (Node.js, Express.js)
